Ref. HYGIENIC ATTEST

Dear Sirs,

we send you the following documents and information after all to obtain the hygienic certificate for our products.

#1# DETERMINATION OF THE PRODUCTS AND DESCRIPTION:

The products we sell in the Polish market are:

AGGLORESINA (RESIN BONDED MARBLE)
It's a mixture of stones in several sizes, powder of marble, resin (see enclosure for chemical composition) and colouring.
It can be in different colours.

AGGLOCEMENTO (CEMENT BONDED MARBLE)
It's a mixture of stones in several sizes, powder of marble, cement (see enclosure for chemical composition) and colouring.
It can be in different colours.

#2# APPLICATION OR DESTINATION IN PRACTICE:

We sell both types of marble in slabs, floortiles, skirting and cut to size like stairs, covering, kitchen top and vanity top. Both types can be used whether indoor or outdoor, it depends on manufacture type of the exposed surface, which must respect some limits of safety.

#3# PRODUCT'S CHEMICAL COMPOSITION AND DOCUMENTS:

The chemical substances we use in AGGLORESINA are resin (R73x0; enclosure A) catalysts (COBALTO OCTOATE 6% XI; enclosure B) (LUPEROX Z13 G; enclosure C).
See enclosures for more information.

The chemical substance we use in AGGLOCEMENTO is cement (ROCCABIANCA B-LL 42,5 R; enclosure D), additive (MAPEI DYNAMON SP1; enclosure E) (MAPEI DYNAMON NRG 1022; enclosure F) (DRIVER CARE 10; enclosure G)
See enclosure for more information.

Pigments used in our products do not contain mercury, cadmium, lead, hexavalent chromium and any carcinogenic organic compounds.

We use oxides as SACHTLEBEN RD3 (enclosure H), NERO NAC (enclosure I), NERO SIOF (enclosure L), ROSSO SIOF (enclosure M), BRUNO SIOF (enclosure N), GIALLO SIOF (enclosure O), KJ 957PG TITANIO (enclosure P).
We use coloring pastes as IRPOL VERDE ALPI (enclosure Q).

#4# PRODUCER'S NAME AND ADDRESS:
